Index of Subjects

Volume 134, 1989

Acantholysis
plasminogen activator in, 561
Acetylcholine
receptor in thymomas in myasthenia gravis, 865
Aging
and cytochrome-c-oxidase deficiency in cardiomyocytes, 1167
skin changes in, 1019
AIDS
and localization of simian immunodeficiency virus, 373, 385
megakaryocytes in, 1295
thymus in, 1329
Alzheimer's disease
and amyloid deposits in brain, 243
and amyloid precursor protein in brain cells, 973
and tau accumulation in plaques, 1365
Amyloid
deposits in brain tissue in Alzheimer's disease, 243
precursor protein in brain cells, 973
protein precursor gene expression in brain regions, 1253
Amyloidosis
fibronectin in, 1305
Animal models of human disease
disseminated intravascular coagulation, 719
lymphatic filariasis, 1373
Apoptosis
in uterine epithelium, 491
Arthritis
Lyme arthritis in hamsters, 1113
in murine chlamydial infection, 903
Asbestos exposure
and carcinogenesis studies with MeT5A cells, 979
and tritiated thymidine incorporation in lungs, 133
Atherosclerosis
aortic proteoglycans in, 615
core region of plaques in, 705
and cytomegalovirus in arterial walls, 1151
and surface antigen on smooth muscle cells, 305

B-cell neoplasms
clonal evolution of, 1233
response to B-cell growth factor, 913
Basal cells
in breast cancer, 571
Basement membrane
in breast cancer, 571
glomerular, collagen type IV in, 1047
novel collagen chains in, 813
Bleomycin
and alveolar macrophage growth factor secretion, 355
Bone marrow
monokines affecting, 149
transplants in canine mucopolysaccharidoses I, 677
Brain
amyloid deposits in Alzheimer's disease, 243
amyloid protein in cells, 973
distribution of amyloid protein precursor gene expression, 1253
epidermal growth factor and somatostatin receptors in tumors, 337
monocyte response to cytomegalovirus infection, 71
stromal cells in cerebellar hemangioblastomas, 271
tau accumulation in senile plaques, 1365
transforming growth factor expression in gliomas, 895
Breast cancer
basal cells and basement membrane in, 571
gelsolin in tumor cells, 597
opioid peptides in, 475
thymidine labeling index and Ki-67 growth fraction in, 107

Calcification
arterial, in carbonic anhydrase II deficiency, 947
Carbohydrate antigens
on teratocarcinoma cells, 1315
Carbonic anhydrase II
deficiency of, and arterial calcinosis, 947
CD10 antigen
in mesenchymal tumors, 961
Cell death
after exposure to MNNG, 553
programmed in uterine epithelium, 491
Cell duplications
and interphasic nucleolar organizer regions in cancer cells, 925

Cellular inclusions
ubiquitin in, 505
Chemotaxis
bacterial factors in, 797
of bovine neutrophils in vivo, 671
and leukocyte migration in synovial tissue, 1213
and mast cells affecting oriented leukocyte migration, 161
Chlamydial infection
and arthritis in mice, 903
Cholestasis
and tight junction ZO-1 protein component in hepatocytes, 1055
Chromosomes
in renal cell carcinoma, 27
in renal oncocytoma, 967
Cirrhosis
copper-induced, 1263
primary biliary, dendritic cells in, 741
Clara cell antigen
in hamster lung tumors, 79
Coagulation
disseminated intravascular, in rats, 719
Collagen
changes in aged skin, 1019
novel chains in basement membrane, 813
type IV in glomerular basement membranes, 1047
types IV and VII in breast tissue and breast cancer, 571
Connective tissue cells
in healing myocardium, 993
Copper
and cirrhosis induction, 1263
Cristobalite
pulmonary response to, 1243
Cytochrome-c-oxidase
deficiency in cardiomyocytes, 1167
Cytokines
endotoxin-induced gene expression, 11
Cytomegalovirus
DNA localization in plastic sections, 457
monocyte response to CNS infection, 71
nucleic acids in arterial walls, 1151

Dendritic cells
in liver diseases, 741
Diabetes mellitus
blood-retinal barrier breakdown in, 231
in hypertensive rats, cardiac pathology in, 1159
and Ia antigen expression on islet parenchymal cells, 237
1,1-Dichloroethylene
effects on bile canaliculi, 1099
Dipeptidyl peptidase IV
in Heymann nephritis, 405
DNA
damage from MNNG, and cell death, 53
fragmentation of, and apoptosis in uterine epithelium, 491
hybridization studies. *See* Hybridization *in situ*
strand breaks induced by radiation, 7
Down's syndrome
and amyloid precursor protein in brain cells, 973

Elastase
colocalization with myeloperoxidase in neutrophils, 1275
Elastic fibers
aging changes in, 1019
Endothelial cells. *See* Vasculature
Endotoxin
and cytokine gene expression, 11
Epidermal growth factor
and somatostatin receptors in brain tumors, 337
Epstein-Barr virus
nucleic acids detected in tissue sections, 651
Erratum, 236
Eye
blood-retinal barrier breakdown in diabetes, 231

Ferritin
synthesis in neonatal hemochromatosis, 439
Fibroblasts
interstitial, in pulmonary fibrosis, 411
Fibronectin
in amyloidosis, 1305
β_1-integrin receptor in glomeruli, 481
production affected by interferon-γ and tumor necrosis factor, 827
Filariasis
lymphatic, animal model of, 1373
Flow cytometry
lectin, for endothelium, 1227
Formaldehyde
effects on tracheobronchial epithelium, 99
toxicity in monkey respiratory tract, 515

β-Galactosidase
lysosomal, deficiency in sheep, 263
Gelsolin
in breast cancer cells, 597
Gliomas
transforming growth factor expression in, 895
Golgi membranes
reorganization in macrophages, 15
Granulocyte-colony stimulating factor
hematologic effects of, 149
Granuloma formation
macrophages and monokines in, 1189

Growth factor
alveolar macrophage, secretion affected by bleomycin, 355
B cell, in neoplasms of B cell lineage, 913
epidermal, and somatostatin receptors in brain tumors, 337
insulinlike, in mesangial cell cycle, 395
transforming, expression in gliomas, 895
Growth fraction
Ki-67 in breast cancer, 107
melanoma, and prognostic index, 1063
Growth hormone
production with prolactin in pituitary adenomas, 605
in silent somatotroph pituitary adenomas, 345

Heart
connective tissue cells in healing myocardium, 993
cytochrome-c-oxidase deficiency in cardiomyocytes, 1167
early changes in acute right ventricular infarction, 693
healing after myocardial infarction, 879
isoproterenol affecting sarcolemmal membrane, 171
myocardial fibrosis from isoproterenol, 365
pathology in hypertensive diabetic rat, 1159
Hemangioblastoma
cerebellar, stromal cells in, 271
Hematopoiesis
monokines affecting, 149
Hemochromatosis
neonatal, cellular iron handling in, 439
Hepatocytes
pancreatic, development of, 1069
Herpes simplex virus
affecting endothelial cells, 223
5-HETE
and bovine neutrophil chemotaxis in vivo, 671
Histocompatibility complex
expression of class II antigens in lupus nephritis, 45
Hodgkin's disease
and expression of Ki-1 antigens on macrophages, 187
and lymphoid origin of Reed-Sternberg cells, 203
Hybridization *in situ*
for amyloid protein precursor gene expression in brain regions, 1253
for cytomegalovirus in arterial walls, 1151
for cytomegalovirus localization in plastic sections, 457
for Epstein-Barr virus genomes, 651
for laminin gene transcripts in liver, 1175
for pancreatic hepatocyte lineage studies, 1069
for papillomavirus DNA, fixatives affecting, 837
for pituitary adenoma secretions, 605
for silent somatotroph pituitary adenomas, 345
for viral DNA detection in liver, 633
Hydrolases
lamellar body, in lung injury, 1143
Hypertension
in diabetic rats, cardiac pathology in, 1159

Immune complexes
enteropathy from, 193
and monocyte production of tumor necrosis factor and interleukin-1, 1
Immunodeficiency virus. *See* AIDS
Immunoglobulins
gene analysis in B-cell lymphomas, 1233
nonamyloidotic light chain deposits, 749
Insulinlike growth factor-1
in mesangial cell cycle, 395
β_1-Integrin
fibronectin receptor in glomeruli, 481
Interferon-γ
and expression of Hodgkin antigen Ki-1 on macrophages, 187
and fibronectin production by melanoma cells, 827
regulatory function in vascular endothelial cells, 35
Interleukin-1
glomerular production in focal segmental glomerulosclerosis, 933
in granuloma formation, 1189
hematologic effects of, 149
production by monocytes, 1
Intestines
immune complex-induced enteropathy, 193
neoplasms recognized by monoclonal antibody, 641
Iron
cellular handling in neonatal hemochromatosis, 439
Isoproterenol
effects on sarcolemma, 171
myocardial fibrosis from, 365

Joints
arthritis in murine chlamydial infection, 903
leukocyte migration in synovial tissue, 1213
Lyme arthritis in hamsters, 1113
synovitis from phospholipase A_2, 807

Keratin
in basal cells, in breast cancer, 571
expression of K19 in oral premalignancy, 89
Kidney
adrenergic influences on glomerulus, 1039
collagen type IV in glomerular basement membranes, 1047
dipeptidyl peptidase IV in Heymann nephritis, 405
glomerular cells in focal segmental glomerulosclerosis, 933
glomerular epithelial cell antibodies, 1125

glomerular injury from tumor necrosis factor, 419
insulinlike growth factor-1 in mesangial cell cycle, 395
β_1-integrin receptor for fibronectin in glomeruli, 481
low-dose aspirin effects in glomerulosclerosis, 1027
macrophage activation in glomerulonephritis, 431
matrix formation by mesangial cells, 843
MHC class II expression in lupus nephritis, 45
monocyte production of tumor necrosis factor and interleukin-1 in glomerulonephritis, 1
oncocytoma of, 967
papillary renal cell carcinoma, 27

Lamellar bodies
hydrolases in lung injury, 1143
Laminin
gene transcripts in liver, 1175
Lectin
in flow cytometry of endothelium, 1227
Leukemias
B cell growth factors in, 913
T cell antigens in, 761
Leukocytes
migration in synovial tissue, 1213
oriented migration affected by mast cells, 161
Leukotriene B_4
and bovine neutrophil chemotaxis in vivo, 671
synthesis by macrophages in glomerulonephritis, 431
Light chain deposits
nonamyloidotic, 749
Lipid
deposits in core region of atherosclerotic plaques, 705
Lipoproteins
binding to schistosomula, 1007
interaction with proteoglycans in aorta, 287
Liver
copper-induced cirrhosis, 1263
cytoskeleton of epithelial tumor cells, 447
dendritic cells in disease pathogenesis, 741
effects of 1,1-dichloroethylene on bile canaliculi, 1099
hepatocyte tight junction protein ZO-1 in cholestasis, 1055
laminin gene transcripts in, 1175
stem cell origin of cancer, 1347
viral DNA detection in, 633
Lungs
antigenicity of low molecular weight surfactants, 723
bleomycin affecting alveolar macrophage growth factor secretion, 355
histogenesis of hamster tumors, 79
interstitial macrophage-fibroblast interactions in fibrosis, 411
lamellar body hydrolases in injury, 1143
marker for alveolar type II cells, 277
response to cristobalite, 1243
surfactant-associated proteins in neonatal respiratory distress, 1285
tritiated thymidine incorporation after asbestos exposure, 133
virus replication in type II alveolar epithelial cells, 1135
Lupus nephritis
expression of MHC class II antigens in, 45
Lyme arthritis
histopathology in hamsters, 1113
Lymphoid tissue
detection of Epstein-Barr virus nucleic acids in, 651
MT2 antibody as marker of neoplastic follicles, 63
simian immunodeficiency virus localization in, 373, 385
total irradiation affecting Peyer's patch cytoarchitecture, 529
Lymphomas
B-cell, clonal evolution of, 1233
B cell growth factors in, 913
cell proliferation in, 327
Hodgkin's. *See* Hodgkin's disease
immunodiagnosis of T cell neoplasia, 761
nuclear antigens in, 213
Lymphotoxin
and endothelial cell activation, 551
Lysosomal storage disease
and bone marrow transplants in canine mucopolysaccharidosis I, 677
in sheep, 263

Macrophages
activation in glomerulonephritis, 431
alveolar, growth factor secretion affected by bleomycin, 355
expression of Hodgkin antigen Ki-1, 187
fate of ApoE during spreading on immune complexes, 661
in focal segmental glomerulosclerosis, 933
in granuloma formation, 1189
interstitial, in pulmonary fibrosis, 411
reorganization of organelles in, 15
Mast cells
and oriented leukocyte migration, 161
Megakaryocytes
changes in AIDS, 1295
Melanoma
and fibronectin production affected by interferon-γ and tumor necrosis factor, 827
immunohistochemistry of antigens in, 295
tumor cell growth fractions in, 1063
Mesangial cells
formation of extracellular matrix, 843
norepinephrine affecting, 1039
Mesothelial cells
SV40-transformed, 980

N-Methyl-N'-nitro-N-nitrosoguanidine
cell death from, 53
Monoclonal antibodies
to amyloid protein in brain cells, 973
to carbohydrate antigens on teratocarcinoma cells, 1315
to helper T cell subset, 1339
Ki-67 growth fraction in breast cancer, 107
melanoma studies with Ki-67, 1063
MT2 as marker of neoplastic follicles, 63
PCNA/cyclin preparations, 733
reaction with gastrointestinal neoplasms, 641
T cell reactivity with HML-1 in mycosis fungoides, 955
to tissue factor, 1087
Monocytes
production of tumor necrosis factor and interleukin-1, 1
in response of CNS to cytomegalovirus, 71
Monokines
in granuloma formation, 1189
hematologic effects of, 149
Mucopolysaccharidoses I
canine, bone marrow transplants in, 677
Myasthenia gravis
and actylcholine receptor in thymomas, 865
Mycosis fungoides
immunodiagnosis of, 761
reactivity of T cells with monoclonal antibodies, 955
Myeloma
and nonamyloidotic light chain deposits, 749
Myeloperoxidase
colocalization with elastase in neutrophils, 1275

Neoplasia
acetylcholine receptors in thymomas in myasthenia gravis, 865
B cell growth factors in, 913
basement membrane and basal cells in breast cancer, 571
carbohydrate antigens on teratocarcinoma cells, 1315
cell proliferation in lymphomas, 327
clonal evolution of B-cell lymphomas, 1233
clonal origin of thyroid lesions, 141
common acute lymphoblastic leukemia antigen expression in mesenchymal tumors, 961
cytoskeleton of hepatic epithelial tumor cells, 447
epidermal growth factor and somatostatin receptors in brain tumors, 337
fibronectin production in melanoma affected by interferon-γ and tumor necrosis factor, 827
gelsolin in breast cancer cells, 597
histogenesis of hamster lung tumors, 79
immunohistochemistry of melanoma antigens, 295
immunophenotypes of T-cell neoplasms, 761
induction of mixed adenosquamous-islet cell carcinoma, 627
interphasic nucleolar organizer regions in cancer cells, 925
keratin 19 in oral premalignancy, 89
macrophage expression of Hodgkin antigen Ki-1, 187
monoclonal antibody recognizing gastrointestinal neoplasms, 641
neuroblastic potential of retinoblastoma cell lines, 115
opioids in breast cancer, 475
papillary renal cell carcinoma, 27
papillomavirus transcription in genital precancers, 1183
pituitary adenomas producing growth hormone and prolactin, 605
renal oncocytoma, 967
silent somatotroph pituitary adenomas, 345
stem cell origin of liver cancer, 1347
stromal cells in cerebellar hemangioblastoma, 271
studies with monoclonal antibodies to PCNA/cyclin, 733
thymidine labeling index and Ki-67 growth fraction in breast cancer, 107
transthyretin in endocrine pancreatic tumors, 465
tumor cell growth fractions in melanomas, 1063
α-Neuraminidase
lysosome, deficiency in sheep, 263
Neutrophils
activating factor with inflammatory activity, 755
bacterial factors in chemotaxis, 797
bovine, chemotaxis in vivo, 671
colocalization of elastase and myeloperoxidase in, 1275
and xanthine oxidase activity in pulmonary artery endothelial cells, 1201
N-Nitrosamines
tobacco-specific, and induction of mixed adenosquamous-islet cell carcinoma, 627
Norepinephrine
effects on mesangial cells, 1039

Oncocytoma
renal, 967
Opioid peptides
in breast cancer, 475
Oral epithelium
keratin 19 expression in premalignancy, 89
Oxygen
hyperoxia affecting pulmonary veins, 253
reactive metabolites generated by cancer cells, 787

Pancreas
aberrant Ia antigen expression on islet parenchymal cells, 237
hepatocyte development in, 1069

induction of mixed adenosquamous-islet cell carcinoma, 627
monoclonal antibody to carcinoma cell line, 641
transthyretin in endocrine tumors, 465
in zinc toxicosis, 581
Pancreatitis
induced by platelet activating factor, 315
Papillomavirus
fixatives affecting *in situ* hybridization analysis, 837
transcription in genital precancers, 1183
Parainfluenza virus
replication in type II alveolar epithelial cells, 1135
PCNA/cyclin
monoclonal antibodies to, in tumor studies, 733
Pemphigus vulgaris
plasminogen activator in, 561
Peyer's patches
cytoarchitecture after total lymphoid irradiation, 529
Phospholipase A_2
synovitis from, 807
Pituitary
adenomas producing growth hormone and prolactin, 605
silent somatotroph adenomas, 345
Plasminogen activator
in pemphigus vulgaris, 561
Platelet activating factor
pancreatitis induced by, 315
Prolactin
production with growth hormone in pituitary adenomas, 605
Prostaglandin E_2
synthesis by macrophages in glomerulonephritis, 431
Proteoglycans, aortic
in atherosclerosis, 615
interaction with lipoproteins, 287
Pulmonary artery
xanthine oxidase in endothelial cells, 1201
Pulmonary veins
high oxygen injury to, 253

Radiation
and DNA strand breaks, 7
Reed-Sternberg cells
lymphoid origins of, 203
Respiratory distress
neonatal, surfactant-associated proteins in, 1285
Respiratory tract
formaldehyde toxicity in monkeys, 515
pluripotent tracheal basal cell clones, 539
Retinoblastoma
neuroblastic potential of cell lines in, 115
Retinopathy
diabetic, blood-retinal barrier breakdown in, 231

S-100 protein
in dendritic cells in liver disease, 741
Sarcolemma
isoproterenol affecting, 171
Schistosomula
lipoprotein binding to, 1007
Sendai virus
replication in type II alveolar epithelial cells, 1135
Sex pheromones
neutrophil responses to, 797
Silica
and lung response to cristobalite, 1243
Skin
aging changes of collagen and elastic fibers, 1019
Somatostatin
receptors in brain tumors, 337
Somatotroph adenomas
silent, pituitary, 345
Suramin
and lipoprotein binding to schistosomula, 1007
SV40
T antigen expression in mesothelial cells, 979
Synovial tissue
leukocyte migration in, 1213
Synovitis
from phospholipase A_2, 807

T cells
immunophenotypes of neoplasms, 761
monoclonal antibody to helper subset, 1339
reactivity with HML-1 antibodies in mycosis fungoides, 955
Tau protein
in senile plaques in Alzheimer's disease, 1365
Teratocarcinoma cells
carbohydrate antigens in, 1315
Thromboxane
effects of synthesis inhibitor in glomerulosclerosis, 1027
synthesis by macrophages in glomerulonephritis, 431
Thymidine labeling index
in breast cancer, 107
Thymomas
acetylcholine receptor in myasthenia gravis, 865
Thymus
in AIDS patients, 1329
Thyroid
clonal origin of lesions, 141
Tissue factor
cellular distribution of, 1087
Trachea
pluripotent basal cell clones, 539
Tracheobronchial epithelium
formaldehyde affecting, 99

Transferrin receptor
synthesis in neonatal hemochromatosis, 439
Transforming growth factor
expression in gliomas, 895
Transthyretin
in endocrine pancreatic tumors, 465
Tumor necrosis factor
and endothelial cell activation, 551
and fibronectin production by melanoma cells, 827
glomerular injury from, 419
in granuloma formation, 1189
hematologic effects of, 149
production by monocytes, 1
mRNA expression in visceral organs, 11
Tumors. *See* Neoplasia

Ubiquitin
in intracellular inclusions, 505
Uterus
programmed cell death in epithelium, 491

Vasculature
aortic proteoglycans in atherosclerosis, 615
arterial calcinosis in carbonic anhydrase II deficiency, 947
cancer cell damage of endothelium, 787
core region of atherosclerotic plaques, 705
cytomegalovirus in arterial walls, 1151
endothelial cell activation by tumor necrosis factor and lymphotoxin, 551
endothelial-intimal cell interaction, 497
herpes simplex virus affecting endothelial cells, 223
high oxygen injury to pulmonary veins, 253
interactions of aortic proteoglycans and lipoprotein, 287
lectin flow cytometry of endothelium, 1227
regulatory function of interferon-γ in endothelial cells, 35
surface antigen on atherosclerotic smooth muscle cells, 307
von Willebrand factor in endothelial injury, 857
xanthine oxidase in pulmonary artery endothelial cells, 1201
Viruses
DNA detection. *See* Hybridization *in situ*
herpes simplex affecting endothelial cells, 223
localization of simian immunodeficiency virus, 385
monocyte response to CNS cytomegalovirus infection, 71
papillomavirus transcription in genital precancers, 1183
replication in type II alveolar epithelial cells, 1135
SV40-transformed mesothelial cells, 980
Von Willebrand factor
endothelial injury affecting, 857

Xanthine oxidase
in pulmonary artery endothelial cells, 1201

Zinc toxicosis
pancreas in, 581

CONTENTS FOR VOLUME 134

January 1989

Rapid Communications

1 Glomerular Basement Membrane-Containing Immune Complexes Stimulate Tumor Necrosis Factor and Interleukin-1 Production by Human Monocytes
Margret C. M. Vissers, Joseph C. Fantone, Roger Wiggins, and Steven L. Kunkel

7 Nick Translation Detection *In Situ* of Cellular DNA Strand Break Induced by Radiation
Yoshihiko Maebara, Hideaki Anai, Tetsuya Kusumoto, Yoshihisa Sakaguchi, and Keizo Sugimachi

11 Endotoxin-Induced Cytokine Gene Expression *In Vivo*: I. Expression of Tumor Necrosis Factor mRNA in Visceral Organs Under Physiologic Conditions and During Endotoxemia
Thomas R. Ulich, Kaizhi Guo, and Juan del Castillo
